

To whom it may concern.

I am a Xm radio subscriber. My job requires I be outside working in rain, sleet, hale and snow. I need the weather station to keep me informed of the weather changes. Local radio stations only give the weather report once every couple of hours. When I drive home after working all day I sit in traffic like everyone else. I want to know where there are accidents and where I can go to get home to my family. I am paying for this service every month. We don't need anymore regulations that tell the people what they can and can't do. I pay for the service and it is important to my job and lifestyle. Please reject the NAB's 04-160 petiton. No more regulation. If I don't like it I will turn the station.

Thank you Jeremy Toman
